Stock Ownership Limitations

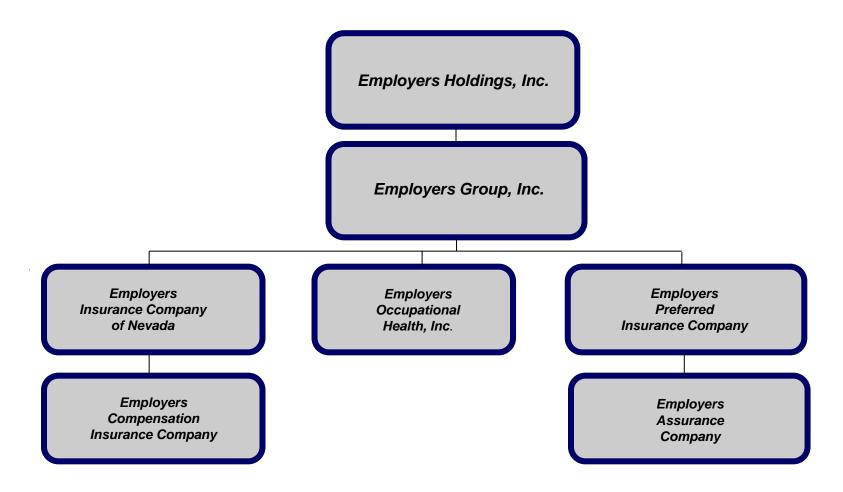

As a reminder to investors, Employers Holdings, Inc. (EMPLOYERS) owns four insurance companies, domiciled in three different states. These wholly-owned insurers are regulated by insurance commissioners and are subject to the statutes and regulations of the various states where they are domiciled and authorized to transact insurance. As a result, EMPLOYERS has the following stock ownership limitations, which must be satisfied prior to certain stock transactions.

- For a period of five years following the effective date of the Plan of Conversion of EMPLOYERS, which was February 5, 2007, no person may directly or indirectly acquire or offer to acquire in any manner beneficial ownership of 5% or more of any class of EMPLOYERS voting securities without the prior approval by the Nevada Commissioner of Insurance of an application for acquisition under Section 693A.500 of the Nevada Revised Statutes.
- Under Nevada insurance law, the Nevada Commissioner of Insurance may not approve an application for such acquisition unless the Commissioner finds that (1) the acquisition will not frustrate the plan of conversion as approved by our members and the Commissioner, (2) the board of directors of Employers Insurance Company of Nevada has approved the acquisition or extraordinary circumstances not contemplated in the plan of conversion have arisen which would warrant approval of the acquisition, and (3) the acquisition is consistent with the purpose of relevant Nevada insurance statutes to permit conversions on terms and conditions that are fair and equitable to the members eligible to receive consideration.
- Furthermore, any person or entity who individually or together with an affiliate (as defined by applicable law) seeks to
 directly or indirectly acquire in any manner, at any time, beneficial ownership of 5% or more of any class of
 EMPLOYERS voting securities, will be subject to certain requirements, including the prior approval of the proposed
 acquisition by certain state insurance regulators, depending upon the circumstances involved. Any such acquisition
 without prior satisfaction of applicable regulatory requirements may be deemed void under state law.
