Presentation

2018

Executive Summary

Underwriting:

- Multi-year strategy to enable the writing of business throughout the United States nearly complete (excluding monopolistic states).
- Multi-year Initiative to improve policy lifecycle efficiencies through the enhanced use of technology and data to automate work flows is well underway and new capabilities are being rolled-out continuously.

Claims:

- Claim settlement strategies and the use of an outcomes based network continue to produce paid claims averages significantly better than the industry.
- Our aged pending initiative targets our most expensive strata of claims - those between 2 to 3 years old. Begun in 2015, this initiative has resulted in \$184.9 million in cumulative reserve salvage from 2015 to June 2018.
- Implemented the use of predictive analytics in identifying “jumper” claims and initiated a project to use predictive analytics to identify medical provider fraud

Financials:

- Strong capitalization.
- Strong operating performance with significant underwriting profit.
- AM Best A-(Excellent) rating with positive outlook.

Non-GAAP Financial Measures

- In presenting Employers Holdings, Inc.'s (EMPLOYERS®) results, management has included and discussed certain non-GAAP financial measures, as defined in Regulation G.
- Management believes these non-GAAP measures better explain EMPLOYERS results allowing for a more complete understanding of the underlying trends in our business.
- These measures should not be viewed as a substitute for those determined in accordance with GAAP.
- Reconciliation of these measures to their most comparable GAAP financial measures are included in the attachment to this presentation. They are also included in the earnings release Form 8-Ks filed with the Securities and Exchange Commission (SEC) and available in the "Investor Relations" section of our website at www.employers.com.

Forward- looking Statements

- This presentation may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.
- These statements often include words like "believe", "expect", "anticipate", "estimate" and "intend" or future or conditional verbs such as "will", "would", "should", "could" or "may".
- All such written and oral forward-looking statements attributable to us or individuals acting on our behalf are expressly qualified in their entirety by these cautionary statements. They may reflect EMPLOYERS' current views with respect to future events, business transactions and business performance and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements involve risks and uncertainties, which may cause actual results to differ materially from those set forth in these statements.
- The business of EMPLOYERS® and those engaged in similar lines of business could be affected by a number of factors identified in EMPLOYERS® filings with the SEC.
- Accordingly, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made.

Updates

- We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Definitions and Reconciliations of Non-GAAP to GAAP Measures

Within this investor presentation we present various financial measures, some of which are "non-GAAP financial measures" as defined in Regulation G pursuant to Section 401 of the Sarbanes - Oxley Act of 2002. A description of these non-GAAP financial measures, as well as a reconciliation of such non-GAAP measures to EMPLOYERS most directly comparable GAAP financial measures is included in the attached Financial Supplement. Management believes that these non-GAAP measures are meaningful to the Company's investors, analysts and other interested parties who benefit from having an objective and consistent basis for comparison with other companies within our industry. These non-GAAP measures are not a substitute for GAAP measures and investors should be careful when comparing the Company's non-GAAP financial measures to similarly titled measures used by other companies.

Glossary of Financial Measures

Within this earnings release we present the following measures, each of which are "non-GAAP financial measures." A reconciliation of these measures to the Company's most directly comparable GAAP financial measures is included herein. Management believes that these non-GAAP measures are important to the Company's investors, analysts and other interested parties who benefit from having an objective and consistent basis for comparison with other companies within our industry. Management further believes that these measures are more relevant than comparable GAAP measures in evaluating our financial performance.

The LPT Agreement is a non-recurring transaction that does not result in ongoing cash benefits to the Company. Management believes that providing non-GAAP measures that exclude the effects of the LPT Agreement (amortization of deferred reinsurance gain, adjustments to LPT Agreement ceded reserves and adjustments to contingent commission receivable) is useful in providing investors, analysts and other interested parties a meaningful understanding of the Company's ongoing underwriting performance.

Deferred reinsurance gain (Deferred Gain) reflects the unamortized gain from the LPT Agreement. This gain has been deferred and is being amortized using the recovery method, whereby the amortization is determined by the proportion of actual reinsurance recoveries to total estimated recoveries, except for the contingent profit commission, which is being amortized through June 30, 2024. Amortization is reflected in losses and LAE incurred.

Adjusted net income (see Page 21 for calculations) is net income excluding the effects of the LPT Agreement, net realized and unrealized gains (losses) on investments (net of tax), and amortization of intangible assets (net of tax). Management believes that providing this non-GAAP measure is helpful to investors, analysts and other interested parties in identifying trends in the Company's operating performance because such items have limited significance to its ongoing operations or can be impacted by both discretionary and other economic factors and may not represent operating trends. The Company previously referred to Adjusted net income as Operating income.

Stockholders' equity including the Deferred Gain is stockholders' equity including the Deferred Gain. Management believes that providing this non-GAAP measure is useful in providing investors, analysts and other interested parties a meaningful measure of the Company's total underwriting capital.

Adjusted stockholders' equity (see Page 25 for calculations) is stockholders' equity including the Deferred Gain, less accumulated other comprehensive income (net of tax). Management believes that providing this non-GAAP measure is useful to investors, analysts and other interested parties since it serves as the denominator to the Company's operating return on equity metric.

Return on stockholders' equity and Adjusted return on stockholders' equity (see Page 21 for calculations). Management believes that these profitability measures are widely used by our investors, analysts and other interested parties. The Company previously referred to Adjusted return on stockholders' equity as Operating return on adjusted stockholders' equity.

Book value per share, Book value per share including the Deferred Gain, and Adjusted book value per share (see Page 25 for calculations). Management believes that these valuation measures are widely used by our investors, analysts and other interested parties. The Company previously referred to Book value per share as GAAP book value per share, and Book value per share including Deferred Gain as Book value per share.

Net income, Combined ratio, and Combined ratio before impact of the LPT (see Pages 20 and 22 for calculations). Management believes that these performance and underwriting measures are widely used by our investors, analysts and other interested parties.
